

## 109 D. (17) Scientific audit of the schools coming under Karnataka Residential Educational Institutions Society (KREIS)

### Preamble:

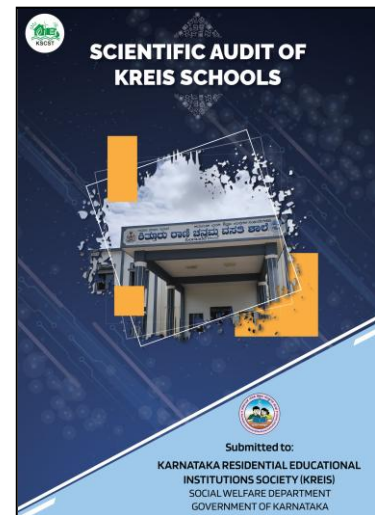

Social Welfare Department invited KSCST to conduct Scientific Audit of the KREIS schools. The scientific audit aims towards pointing out system deficiencies with a view to assist the department and the role of audit is complementary to the efforts of the department to improve the managerial practices in school administration.

### objectives:

- To study the importance of KREIs in serving the students of socio economic and marginalized communities.
- To identify the challenges and constraints faced by these schools in Karnataka particularly financial, educational, infrastructural, and administrative issues.
- To recommend corrective measures to improve the overall financial, physical infrastructure and the quality of education.

### Progress: April – November 2024

As suggested by Sri Major Manivannan, IAS, Principal Secretary to Government, Department of Social Welfare, Government of Karnataka to study the new initiatives adopted by the KREIS schools, audit team visited KREIS schools at Tumakuru and Chitradurga districts during 12<sup>th</sup> to 13<sup>th</sup> July, 2024. The recommendations have been furnished, by discussion/interviewing with principals, teachers, non-teaching staffs, students, other stakeholders and suggested certain measures for improvement and to bring opportunities to explore bridging academic excellence and suggestions and pointers for future initiatives. Final report has been submitted to the Executive Director, KREIS on 27<sup>th</sup> November 2024.

Scientific Audit team visited KREIS school at Turuvekere, Tumakuru to study the new initiatives adopted by KREIS
