As prescribed by Visvesvaraya Technological University in partial fulfillment of the
requirements for the award of the degree of

BACHELOR OF ENGINEERING

IN

ELECTRONICS AND COMMUNICATION ENGINEERING

Under the Guidance of

NISHANT N

Lecturer, Department of Electronics and Communication Engineering

DEPARTMENT OF ELECTRONICS AND COMMUNICATION

P.A.COLLEGE OF ENGINEERING

(AFFILIATED TO VISVESVARAYA TECHNOLOGICAL UNIVERSITY & RECOGNIZED BY AICTE)

NEAR MANGALORE UNIVERSITY, MANGALORE-574153, KARNATAKA

2010-2011

ABSTRACT

The hand-held device, in conjunction with the Windows CE operating system, has been billed as a companion to the desktop and laptop personal computer. This project implements an Innovative Method for playing PowerPoint presentation files in a small handheld device. The technology of the hand-held device allows a computer user to have the power and capabilities of a desktop PC in the palm of their hand .The system outputs the presentation through its video out terminals which can be connected to the projectors. In this device there is IR control application to control the slides, which stored at particular part of the device memory.
