ABSTRACT

The Akshaya Patra Foundation manages all the data entry work manually in the datasheets. This project overcomes the disadvantages of the manual entry datasheets. The project focuses mainly on the distribution work done in TAPF. This project enables the as and when needed.

This project helps the administration and distribution related employees to maintain the information about schools and other related modules efficiently. RFID reader and tag helps them to maintain the time gap between the Akshaya Patra kitchen and government schools and help them to calculate the average time required to reach a school. This project helps TAPF to increase speed of work efficiently.
