

*Visvesvaraya Technological University*

*"Jnana Sangama", Belgaum, Karnataka- 590014*

**A PROJECT REPORT**

**ON**

***"MECHANICAL PROPERTIES AND  
PETROGRAPHIC STUDIES OF GRANITE OF  
BIDADI, RAMANAGARAM, KARNATAKA"***

**Submitted to**

**VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELGAUM**

**In partial fulfillment of the requirement for the degree of  
BACHELOR OF CIVIL ENGINEERING**

***SUBMITTED BY***

**JASWANTH GOWDA A (1GC08CV017)**  
**PRIYANKA A (1GC08CV043)**  
**PALLAVIL (1GC08CV039)**

***UNDER THE GUIDANCE OF***

***Dr. A.V.GANESHA  
Asst. Professor***

**DEPARTMENT OF CIVIL ENGINEERING**

**GHOUSIA COLLEGE OF ENGINEERING  
RAMANAGARA-562159**

**2011-2012**

## CONTENTS

<b>CHAPTER – 1 → INTRODUCTION</b>	<b>1 –23</b>
1.1 General Introduction	1
1.2 Rock and texture in Rocks	2
1.2.1 Rock types	2
1.2.2 Rock texture	4
1.3 Weathering	5
1.4 Index properties of rocks	6
1.4.1 Porosity	6
1.4.2 Specific gravity	7
1.4.3 Density	8
1.4.4 Permeability	8
1.4.5 Durability	9
1.4.6 Rock strength	9
1.5 Uniaxial Compressive test	10
1.5.1 Description and test procedure	12
1.6 Tensile strength test	13
1.6.1 Description and test procedure	13
1.7 Shear strength	14
1.8 Engineering classification of intact rocks	16
1.9 Literature Survey	16
1.10 Granite and granite of present study	17
1.11 Quarrying	20
1.12 Advantages and Disadvantages	21
1.13 Granite Quarrying operations	21
1.14 Objectives	23

**CHAPTER – 2 → MATERIALS, INSTRUMENTATIONS  
& METHODOLOGY 24-36**

2.1 Introduction	24
2.2 Study area	24
2.3 Geology of the area	24
2.4 Quarry at the study area	27
2.5 Methodology	28
2.5.1 Materials/ sample collection	28
2.5.2 Thin Section preparation	29
2.6 Instrumentation	30
2.6.1 Microscope	30
2.6.2 Core drilling machine	30
2.6.3 Core cutting and grinding machine features	31
2.6.4 Polishing and Lapping machine	33
2.6.5 Universal tensile machine	34
2.6.6 Brazilian tensile strength machine	35
2.7 Samples prepared as per BIS/ISRM	36

**CHAPTER – 3 → RESULTS AND DISCUSSIONS 38-46**

3.1 Introduction	38
3.2 Petrographically studies of granite	38
3.3 Strength determination	41
3.3.1 Compressive strength	41
3.3.2 Brazilian test	43

**CHAPTER – 4 → CONCLUSION AND REFERENCES 47-50**
