

A Project Report Submitted to the  
**Visvesvaraya Technological University, Belgaum**

*Entitled*

**“LOCATION BASED MOBILE MULTIMEDIA PUSH SYSTEM”**  
**(Sponsored By KSCST, Bangalore)**

**In Partial fulfillment of the award of the degree of the  
Bachelor of engineering in Computer Science & Engg.**

**Submitted By**

**Ms. Veena C. Kodihalli  
Ms. Poonam A. Ajarekar  
Ms. Suchita S. Potdar  
Ms. Padmashri C. Mallapur**

**USN: 2HN08CS049  
USN: 2HN08CS023  
USN: 2HN08CS044  
USN: 2HN08CS022**

**Under the Guidance of  
Shri. S. G. GOLLAGI**

**S.J.P.N Trust's  
HIRASUGAR INSTITUTE OF TECHNOLOGY, NIDASOSHI-591236**

**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING**

**2011-12**

# TABLE OF CONTENTS

|                                                           |              |
|-----------------------------------------------------------|--------------|
| <b>1. Introduction</b>                                    | <b>1-3</b>   |
| 1.1 Problem statement                                     | 1            |
| 1.2 Objective of the project                              | 2            |
| 1.3 Expected outcome                                      | 2            |
| 1.4 Organization of the report                            | 2            |
| <b>2. Literature Survey</b>                               | <b>4-10</b>  |
| 2.1 Android                                               | 4            |
| 2.1.1 Android Features                                    | 4            |
| 2.1.2 Android Architecture                                | 5            |
| 2.2 Net beans                                             | 7            |
| 2.2.1 Net Beans Features.                                 | 8            |
| 2.3 My SQL                                                | 9            |
| 2.4 Apache Web Server                                     | 9            |
| 2.5 Existing system                                       | 10           |
| <b>3. Proposed system</b>                                 | <b>11</b>    |
| 3.1 System Architecture                                   | 11           |
| <b>4. Software Requirement Specification and Analysis</b> | <b>12-22</b> |
| 4.1 Product Perspective                                   | 12           |
| 4.2 Product Functions                                     | 13           |
| 4.3 User Characteristics                                  | 13           |
| 4.4 General Constraints                                   | 13           |
| 4.5 Specific Requirements                                 | 13           |
| 4.5.1 External Interface Requirement                      | 13           |
| 4.5.2 Functional Requirements                             | 14           |
| 4.5.3 Nonfunctional Requirements                          | 14           |
| 4.6 Use Case Diagram                                      | 16           |
| 4.6.1 Use case: Media Upload Location Tagger              | 17           |

|           |                                                      |              |
|-----------|------------------------------------------------------|--------------|
| 4.6.2     | Use case: Streaming                                  | 17           |
| 4.6.3     | Use case: Mapping                                    | 17           |
| 4.6.4     | Use case: Alert                                      | 18           |
| 4.6.5     | Use case: Comment                                    | 18           |
| 4.6.6     | Use case: Gallery Viewer                             | 18           |
| 4.7       | Classes/Objects                                      | 19           |
| 4.7.1     | Class: Server                                        | 19           |
| 4.7.2     | Class: Reporter and Subscriber                       | 20           |
| 4.8       | Design Constraints                                   | 21           |
| 4.9       | Logical Database Requirements                        | 22           |
| <b>5.</b> | <b>System Design</b>                                 | <b>23-46</b> |
| 5.1       | Components of LBMMPS                                 | 23           |
| 5.2       | Block Diagram                                        | 25           |
| 5.3       | Architectural Design                                 | 27           |
| 5.3.1     | Architectural Design of server                       | 27           |
| 5.3.2     | Architectural Design of Client                       | 33           |
| 5.4       | Data Structure Design                                | 35           |
| 5.5       | Analyses Models                                      | 36           |
| 5.5.1     | Sequence Diagram                                     | 36           |
| 5.5.2     | Data Flow Diagram                                    | 36           |
| 5.5.3     | Activity Diagram                                     | 37           |
| 5.6       | Process Flow Chart                                   | 40           |
| 5.7       | Pseudo Codes                                         | 43           |
| 5.7.1     | Pseudo Code for Camera Function                      | 43           |
| 5.7.2     | Pseudo Code for Gallery Viewer Function              | 44           |
| 5.7.3     | Pseudo Code for Mobile Login Authentication Function | 44           |
| 5.7.4     | Pseudo Code for Image Upload Function                | 45           |
| 5.7.5     | Pseudo Code for Fetch Image Function                 | 45           |
| <b>6.</b> | <b>Implementation</b>                                | <b>47-54</b> |
| 6.1       | Implementation Detail                                | 47           |
| 6.1.1     | Platform selection                                   | 47           |

|            |                                            |              |
|------------|--------------------------------------------|--------------|
| 6.1.2      | Language Selection                         | 48           |
| 6.1.3      | Java Coding Standard                       | 51           |
| <b>7.</b>  | <b>Testing</b>                             | <b>55-60</b> |
| 7.1        | Unit Testing                               | 55           |
| 7.2        | Integration Testing                        | 56           |
| 7.3        | System Testing                             | 57           |
| 7.3.1      | Test Case for Server Module                | 58           |
| 7.3.2      | Test Case for Client Module                | 59           |
| <b>8.</b>  | <b>Non Functional Requirement analysis</b> | <b>61</b>    |
| <b>9.</b>  | <b>Sample Screens</b>                      | <b>62-70</b> |
| 9.1        | Signup Page                                | 62           |
| 9.2        | Login to the Existing Group                | 63           |
| 9.3        | Add User to the Group                      | 63           |
| 9.4        | Delete User from the Group                 | 64           |
| 9.5        | Log Out From the Group                     | 64           |
| 9.6        | Group User Login                           | 65           |
| 9.7        | User Login as Reporter                     | 66           |
| 9.8        | Reporter Captures Photo                    | 67           |
| 9.9        | Subscriber Views the Photo                 | 68           |
| 9.10       | Subscriber View the Location of the Photo  | 69           |
| 9.11       | Comments on Photo                          | 70           |
| <b>10.</b> | <b>Conclusion and Future work</b>          | <b>71</b>    |
| <b>11.</b> | <b>Bibliography</b>                        | <b>72</b>    |
| <b>12.</b> | <b>Appendix</b>                            | <b>73</b>    |
