Project proposal reference no :36S0931

Entitled: UNMANNED FIRE ENGINE

UNDER THE GUIDE:

Mr. Manjunatha G H

PROJECT MEMBERS :

MR. LOKESH.S (Ph: 8867851443)
MR. GIRI.K
MR. SANTHOSH S K
MR. SREENIVASA BEERAPANAVAR

SHIRDI SAI ENGINEERING COLLEGE

ANEKAL, BANGALORE

CONTENTS

Chapter – 1	Introduction.....	1
1.1.	Fire fighters duties.....	2
1.2.	Reconnaissance and reading of fire.....	5
1.3.	Science of extinguishment.....	6
1.4.	Use of water.....	7
1.5.	Types of fire.....	8
Chapter – 2	History of hydraulic.....	13
2.1.	layout of unmanned fire engine.....	14
2.2.	working method of UMF.....	15
Chapter – 3	elements of hydraulic	16
3.1.	reservoir.....	16
3.2	filters and strainers.....	20
3.3	hydraulic fluid.....	21
3.4	parts of actuators.....	23
3.5	seals.....	25
3.6	telescopic cylinders	28
3.7	circuits.....	31
3.8	gear pump.....	35
3.9	hose and connections	39
Chapter – 4	calculations.....	41
4.1.	pump pressure.....	42
4.2.	different sizes of tanks.....	45

4.3. centrifugal pump.....	46
4.4. nozzle.....	47
4.5. actuating devices.....	48
4.6. solenoid operations	49
4.7. limit switch.....	50
Chapter – 5 literature survey.....	51
Chapter – 6 Working.....	53
6.1. assembly.....	54
6.2. objective.....	54
6.3 suggestion and improvement.....	58
Chapter – 7 reference.....	59
Chapter – 8 fabrications and galleries	60
Project team.....	72
Chapter-9 project is published and awarded in some of the leading news papers ...	73
