A PROJECT REPORT

ON

**“Mission Malnutrition: A Step Towards Healthier Infants”
(A KSCST sponsored project for the year 2013-2014)**

PROJECT ASSOCIATES

1. ABHIJEET S.J.	4BD10CS002
2. MANIKANTA K.S.	4BD10CS052
3. VINAYAKA P. ARADHYAMATH	4BD10CS118
4. BAGALI SANGANGOUDA	4BD11CS402

PROJECT GUIDES

1. Mr. S.B. Mallikarjuna M Tech,M.I.S.T.E
2. Miss. Rajeshwari M. M Tech

HEAD OF THE DEPARTMENT

Dr. Nirmala C. R. M.Tech, PhD

2013-2014

**Department of Computer Science and Engineering.
Bapuji Institute of Engineering & Technology**

ABSTRACT

As the saying goes “*The health of nations is more important than the wealth of nations*”,so it is at most important to take care of one’s health.Our aim through this project is to take care of the health status of a newly born baby , its treatment records,its prescription and the medical treatment that should be provided in the later susequent stages till the age of 6 through instant alerts.

By using this Web Interface,doctors to view the infants record and their prescriptions given and also allow him to update any new prescription that is to be suggested to the infant and then that information is made available to the respective parent when they view their infant record which will be helpful in the future days for the proper nurturing of the infant.

We even provide message alerts to registered parents from the day of birth and continue it for the next 6 years updating them with the medicine that they need to provide to their infants.
