and
International Geoscience Education Organisation (IGEO)
Jointly organizing 4-day workshop on Geoscience

In order to improve the quality of teaching earth science at the high school level, Karnataka State Council for Science and Technology (KSCST) and International Geoscience Education Organisation (IGEO) jointly organising a 4 day workshop for High School teachers at KSCST, IISc Campus, Bengaluru from 12th July 2015 to 15th July 2015.

The workshop involves a series of hands-on, practical activities, learning and teaching strategies and techniques in all the learning environments of earth science subjects. (Classroom, lab, outdoor and computer). Prof. Nir Orion, Weizmann Institute of Science, Israel and Prof. Chris King, Keele University, United Kingdom are participating as experts.

Workshop materials, working lunch and refreshment will be provided to the participants. No registration fee. Interested young high school teachers those who are teaching geography may send their application in prescribed format given in our website www.kscst.iisc.ernet.in before **30th June 2015** to KSCST, office@kscst.iisc.ernet.in or to the Executive Secretary, KSCST, Indian Institute of Science Campus, Bengaluru – 560 012.
